Cost of Living Budget Survey – SCC Open up for your thoughts

The County Council has released a survey to local residents, asking for their thoughts on the upcoming 2023/24 budget. A summary of responses will be considered when deciding how to spend your money. With inflationary pressures, our Group expects government to seek spending cuts – meaning public services could be cut and council reserves may have to be used.

Despite the difficult situation, can I recommend you complete the survey and share your thoughts on how the Council should spend their money, as well as highlight vulnerabilities you see in your communities that need further addressing.

Cost-of-Living Leaflet: Updated to Show Support

Over 85,000 leaflets, highlighting information and guidance during the crisis, were distributed amongst Suffolk communities. The leaflet shows all the help Suffolk offers with finances and household expenses, as well as how to stay warm this winter. Our Group strongly suggest anyone vulnerable to take a look at how Suffolk can help.

Full Council – 20th October – GLI Motion

We submitted a motion calling for Suffolk County Council to reject the idea of an “Anti-Growth Coalition”. The term, coined by former PM Liz Truss, suggests anyone who criticised the government’s

economic policy was part of a coordinated group against growing our economy. Of course, since then things have quickly moved on and we now have a new Prime Minister with new priorities.

Our Group wanted to debate the issues – including the view that growth should consider social responsibilities, community voices, sound financial policy, and environmental limits, something we believed this government was not adhering to. A useful debate was had.

SCC Cabinet Meeting – 11th October

The Cabinet met for the first time since the summer political recess. The Cabinet agreed to spend £2m on new care provision for Children and Young People in Felixstowe. In addition, SEND services received £10m to provide more specialist units in Suffolk. The opposition supported this spending, as we want to remove the pattern of families travelling cross-county to access educational support.

The Suffolk Local Access Forum submitted their annual report, which included their concerns about Sizewell C and its effect on green networks and Rights of Way. We continue to voice concerns over the effects of nuclear power on our coastal landscape and biodiversity.

In addition, the Cabinet endorsed Transport East's new 2050 strategy, which focusses more on green travel and linking rural communities to local economies. Our Group recognises the importance of connecting isolated residents for both profession and pleasure, and we will ensure SCC adopts all priorities into its own policy. This includes local bus provision which is a really difficult issue for residents affected by recent timetable reductions.

Environmental/biodiversity news

Suffolk Public Sector Leaders (SPSL) unanimously agreed funding today to create a new Fuel Poverty Retrofit Team, helping those most affected by the rising cost-of-living. It will be part of the Warm Homes Suffolk scheme, which was jointly established by Suffolk County Council, Babergh and Mid Suffolk Councils, West Suffolk Council, East Suffolk Council and Ipswich Borough Council in 2021. The scheme is a source of expert advice on reducing energy bills and in identifying benefits that residents may be entitled to. This winter, Warm Homes Suffolk extends its support further with the creation of a Fuel Poverty Retrofit Team: supporting residents in energy-inefficient homes, struggling most to afford rising energy bills. More than 62,000 properties in the county are thought to have the worst Energy Performance Certificates (EPC) of E, F or G. And an estimated 28% of homes - 95,000 households – are in fuel poverty, almost double the number in 2019. SPSL today pledged £366,000 to create the new team to tackle the challenges, with a further £390,000 of funding underwritten. Measures could include the installation of insulation, fitting air source heat pumps and replacing single glazing.

Community Infrastructure Levy

Continued expansion of Thurston Community Collage is progressing.

Beyton Geese

Bird flu measures have once again been correctly implemented in Beyton which has resulted in their famous Geese being pended up again.
